Colonel Robert C. Wittig, USA  
Commander  
U.S. Army Environmental Command  
2450 Connell Road, Building 2264  
Fort Sam Houston, TX 78234

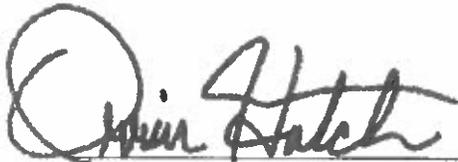

**Re: Department of Defense Army Compatible Use Buffer Program (ACUB): Camp Williams, Utah**

Dear Colonel Wittig,

The Utah National Guard is proposing a Compatible Use Buffer adjacent to Camp Williams. Securing land will provide a buffer against noise complaints and protection to private landowners against fire. The buffer will allow Camp Williams to continue mission critical live fire training operations and rotary wing flight operations.

As you are reviewing ACUB proposals and committing resources, we request full and fair consideration of this proposal to limit the encroachment and constraints to the military training, testing and operations at Camp Williams.

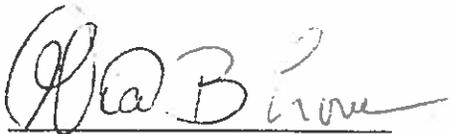

Sincerely,

Senator Orrin Hatch

Representative Jason Chaffetz

Representative Mia Love
